On-line Order Entry for Wholesale Distributors

*With more than 30 years of experience and expertise, **TurningPoint Systems** has established itself as a leading provider of enterprise resource planning (ERP) solutions, wholesale distribution and warehouse management systems (WMS), Sales Force Automation (SFA), and direct store delivery (DSD) software for the candy and tobacco industry, food service industry, and pharmaceutical distribution industries.*

Put our experience and deep expertise to work for your company. We'll show you how to use better technology to increase profitability.

The **Web Order Module** is an on-line B-to-B Order Entry solution designed to increase customer service levels, while increasing margins and reducing costs. Customers or employees can access the Web Portal 24/7/365, through convenient and secure internet access. ProfitWeb is offered as a hosted or on-premise solution and easily interfaces to any back-end system. Key features include customer specific order guides, quick order entry, order history and trends, real-time pricing and inventory, email notifications, customer entry of suggested retail prices (SRP), invoice printing and inquiry, along with standard report features.
