

MSA Reporting for Candy & Tobacco Wholesalers

*With more than 30 years of experience and expertise, **TurningPoint Systems** has established itself as a leading provider of enterprise resource planning (ERP) solutions, wholesale distribution and warehouse management systems (WMS), Sales Force Automation (SFA), and direct store delivery (DSD) software for the candy and tobacco industry, food service industry, and pharmaceutical distribution industries.*

Put our experience and deep expertise to work for your company. We'll show you how to use better technology to increase profitability.

MultiCAT Lite is the ideal solution for the small direct store delivery (DSD), brokers and sub-jobbers that sell cigarettes, tobacco and candy products directly to retail stores. The software meets all the processing requirements set forth by Tobacco manufacturers to register daily or weekly sales and inventory activity. MultiCAT Lite formats the data properly enabling it to be sent directly to MSA through IDT file transfer software.

MultiCAT Lite is the perfect solution for the hundreds, if not thousands of small business owners that are required to report cigarette and tobacco sales to retailers. Enter your sales data, give it a file name, save it, then transfer it to MSA and you're done. All the data will be immediately registered at MSA enabling you accurate and timely reporting to collect any vendor rebates and promotions as soon as possible and meet all compliance reporting.

Benefits

- **Report sales of tobacco products**
- **Tracks sales and maintains compliance**
- **Improve timeliness of rebate requests**
- **Formats data and sends directly to MSA**
- **Integrates to all accounting programs including Quickbooks and Peachtree**
- **Easy to use and quick to install**
- **Does not require dedicated internet connection**
