

# Credit Card Purchasing Solutions for TurningPoint Systems' Powerful ERP System

TurningPoint Systems has partnered with Integrity Merchant Solutions (IMS) an industry leader offering reliable and affordable payment processing solutions and offers comprehensive reporting solutions for merchants of all sizes enabling efficient management of payment transaction data.

Their merchants have access to robust payment options creating the least amount of friction at the point of sale, including touch-less technology, text to pay, digital invoicing, tap to pay, mobile payments, and everything necessary to accept both business and consumer card types.

## Enhanced Security

Enhanced security from IMS delivers the most up-to-date protection throughout the payment process to provide you with comprehensive data security and reduce your liability.

## Instant Transaction Verification

IMS processes virtually every payment option with its wide range of fast, secure, and competitively-priced solutions – including MasterCard®, Diners Club International®, Visa®, American Express®, Discover® Network, PIN-based, and debit cards.

## Customer Data Storage

Having customer data at your fingertips, allows you to make effective business decisions using timely payments metrics and dashboards.

## Features

- ✓ Average reduction of 15% of credit card fees
- ✓ One-time payments and scheduled payments based on Accounts Receivable terms
- ✓ All credit card information secured via token processing
